**B. PARTIES**

1. The Department of Environmental Services, Waste Management Division ("DES"), is a duly constituted administrative agency of the State of New Hampshire, having its principal office at 6 Hazen Drive, Concord, NH 03301.
2. Edward Magee is an individual doing business as Trademark Courier and having a mailing address of 246 Route 13, Brookline, NH 03033.

**C. STATEMENTS OF FACTS AND LAW**

1. RSA 149-M authorizes DES to regulate the management of solid waste in the State of New Hampshire. RSA 149-M:7 authorizes the Commissioner of DES to adopt rules to implement solid waste management standards. Pursuant to this authority, the Commissioner has adopted Env-Wm 100-300 and Env-Wm 2100-3700 ("Solid Waste Rules").
2. Edward Magee is the owner of land located at 246 Route 13, Brookline, NH, more particularly described in a deed recorded in the Hillsborough County Registry of Deeds at Book 5818, Page 1391, and identified on Brookline Tax Map D Lot 3 (the "Site").
3. On March 18 and 19, 2002, DES personnel received two complaints alleging that Edward Magee d/b/a Trademark Courier was conducting unpermitted solid waste activities at the Site.
4. On April 15, 2002, DES personnel investigated the complaints by conducting an inspection of the Site. The purpose of the inspection was to determine Edward Magee d/b/a Trademark Courier's compliance status relative to RSA 149-M and the Solid Waste Rules.
5. RSA 149-M:4, XXII defines "solid waste" as "any matter consisting of putrescible material, refuse, residue from an air pollution control facility, and other discarded or abandoned material."
6. RSA 149-M:4, XXI defines "refuse" in part, as "any waste product ... which is composed wholly or partly of such materials as ... brick, plaster or other waste resulting from the

demolition, alteration, or construction of buildings or structures; or accumulated waste material, cans, containers, tires, junk, or other such substances which may become a nuisance.”

7. Env-Wm 102.42 defines “construction and demolition debris” in part, as “non-putrescible waste building materials and rubble which is solid waste resulting from the construction, remodeling, repair or demolition of structures or roads. The term includes but is not limited to, bricks, concrete and other masonry materials, wood, wall coverings, plaster, dry wall, plumbing, fixtures, non-asbestos insulation or roofing shingles, asphaltic pavement, glass, plastics that are not sealed in a manner that conceals other wastes and electrical wiring and components, incidental to any of the above and containing no hazardous liquid or metals. The term does not include asbestos waste, garbage, corrugated container board, electrical fixtures containing hazardous liquids such as fluorescent light ballasts or transformers, furniture, appliances, tires, drums and containers, and fuel tanks.”

8. During the April 15 Inspection, DES personnel met with Edward Magee. Mr. Magee informed DES personnel that he operates a paper recycling and electronics recycling company at the Site.

9. During the April 15 inspection, DES personnel observed waste, including paper, computer equipment, electronic equipment, small electric motors, and roofing shingles at the Site. Approximately 300 cubic yards of paper and roofing shingles were dumped in a fill area located behind the barn at the Site. The paper was disposed of over the embankment and covered with wood chips and old roofing shingles. There was a large quantity of paper and computer equipment directly next to the fill area. (See attached Site map.)

10. During the April 15 inspection, DES personnel also observed a box truck and a box trailer filled with paper and electronics. The barn was also full of electronic devices.

11. During the April 15 inspection, Mr. Magee informed DES personnel that Apex Construction, Inc., a business owned by Donald Gagne, is renting space at the Site. Mr. Magee informed DES personnel that the roofing shingles observed at the Site were brought on Site by Apex Construction, Inc.

12. The roofing shingles, paper, small electric motors, and electronic equipment observed by DES personnel at the Site are solid wastes as defined by RSA 149-M:4, XXII.

13. RSA 149-M:4, IX defines a “[solid waste] facility” as “a location, system, or physical structure for the collection, separation, storage, transfer, processing, treatment or disposal of solid waste.”

16. Edward Magee is the owner of a solid waste facility.

17. RSA 149-M:9, I states that "No person shall construct, operate or initiate closure of a public or private facility without first obtaining a permit from [DES]."
18. A review of DES files show that Edward Magee d/b/a Trademark Courier has not applied for or holds a permit to operate a solid waste facility at any New Hampshire location.
19. RSA 149-M:9, II states that "It shall be unlawful to transport solid waste to, or dispose of solid waste at, any facility other than an approved [solid waste] facility."
20. During the April 15 Inspection, Mr. Magee informed DES personnel that electronic equipment and paper are brought back to the Site while awaiting proper disposal. Mr. Magee also informed DES personnel that since Papertech, Hopkinton, NH, went out of business he has lost his market to dispose of waste paper that he collects from his customers.

22. RSA 149-M:9, VI states that "No person shall operate a public or private facility who is not certified by [DES]."
23. A review of DES files shows that Edward Magee does not hold a solid waste facility operator certification.
24. Env-Wm 2601.07(b) requires that analytical testing procedures specified in 40 CFR 61 be used to determine whether a waste is an asbestos waste.
